

Turku, 27/08/2007

**We are delighted to invite you to the BUSTRIP Final Conference –
Moving Sustainably - on 7-9 November 2007 in Turku, Finland**

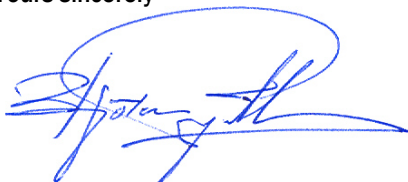

The conference aims at providing practical solutions and tools for European cities and municipalities to deliver Sustainable Urban Transport.

The conference will provide an opportunity to exchange information and experiences between the cities on how to deliver Sustainable Urban Transport. The conference will feature key note speakers mixed with city presentations and workshops. It is possible for participants to bring their own posters displaying related projects or work carried out in the organisation.

At the conference the outcomes of the project BUSTRIP – Baltic Urban Sustainable Transport Implementation and Planning are presented; the twelve Sustainable Urban Transport Plans (SUTP) prepared by the partner cities and the SUTP toolbox, collecting all the learning experiences and good practices from the cities. The toolbox assists European cities with the opportunities available to move towards sustainable urban transport and guide them in doing their own SUTP. The 6 November will be internally for BUSTRIP partners and the 7-8 November is an open conference.

Please register at www.bustrip-project.net under final conference. If you have any questions please do not hesitate to contact Anna Granberg, BUSTRIP Coordinator, anna.granberg@ubc.net or Mikko Laaksonen, City of Turku, mikko.k.laaksonen@turku.fi.

Yours sincerely

On behalf of the coordination team
Björn Grönholm

Head of Secretariat, Union of the Baltic Cities, Commission on Environment
